- ✓ Asphalt Drive

One-of-a-kind Log Home

This is truly a rare opportunity to own a one-of-a-kind D-Log home nestled on 5 beautiful, private acres. Offering the character and warmth of a timber home without sacrificing modern comforts, this property has been thoughtfully crafted for comfortable, connected living.

Inside, the home showcases beautiful wood walls and vaulted, cathedral-style wood ceilings, with most of the flooring featuring 3/4-inch hardwood maple. The spacious living room is a standout, highlighted by a dramatic rock fireplace extending from the floor to the top of the cathedral ceiling. A vaulted sunroom with doors leading to a wraparound deck provides the perfect place to relax and enjoy the peaceful surroundings, while the main-floor primary suite offers the convenience and comfort of single-level living.

The property also features a long asphalt driveway leading from Birch Church Road to a circular drive at the home, with a separate lane extending to the outbuilding. The driveway was sealed in 2025, and a new roof was installed in 2023.

A truly special timber home offering privacy, craftsmanship, character, and plenty of room to enjoy the outdoors.
